Identification of Disabilities and Rickets Symptoms among Population in 2 Unions
and 10 Rohingya Camps of Ukhiya Upazila under Cox's Bazar District

**Project Name: Delivering Health, Nutrition and Livelihood and Protection Services to the
Rohingya Refugees and Vulnerable Host Communities in Cox's Bazar, Bangladesh**

Background of SARPV

Social Assistance and Rehabilitation for the Physically Vulnerable (SARPV) is devoted to work for the most underprivileged and marginalized vulnerable groups of the society for their socioeconomic development to transform them as productive human resource with a dignified lifestyle. People with Disability are the prime focus of our every work. Along with the disability issue SARPV is also intervening in various sensitive issues like poverty eradication, educational support, health service providing, establishing rights, climate change and DRM, skill development to integrate the vulnerable groups in the mainstream of society those who are leading life with uncertainty in the society.

SARPV adopted Community Based Rehabilitation (CBR) strategy for main streaming the persons with disability in the society. Over the years we have changed our approaches from CBR and develop self-help group consist of peoples with disabilities so that they can raise their voice strongly and claim their rights from the service providers.

Bangladesh is a disaster prone area, and people with disabilities suffer a lot during natural disaster and lots of people became disabled as a result of natural disaster. SARPV is one of first organization who has extended their support to the people with disability during and after disaster. We work to sensitize different stakeholders how to reduce the vulnerability of becoming disabled during disaster and how to handle the people with disabilities during and after disaster.

SARPV is an advocacy organization and we do advocacy with policy makers, local government, GOs and NGOs, community people, family members of disabled people in order to ensure the rights and accessibility of peoples with disabilities.

Rationale for Survey

Rickets is a skeletal disorder that's caused by a lack of vitamin D, calcium, or phosphate. These nutrients are important for the development of strong, healthy bones. People with rickets may have weak and soft bones, stunted growth, and, in severe cases, skeletal deformities.

Under the project SARPV will provide necessary medical and referral support to the rickets patients in the following camps and host communities.

Sl. no.	Camp/ Union	Total Household
1	Camp 4	7022
2	Camp 5	5232
3	Camp 6	4594
4	Camp 8W	6678
5	Camp 10	6110
6	Camp 13	8798
7	Camp 14	6575
8	Camp 15	10466
9	Camp 16	4484
10	Camp 22	4282
Sub-total (Rohingya)		64,241
11	Holdiapalong Union	9694
12	Rotnapalong union	5405
Sub-total (local)		15,099
Total		79,340

Objectives of the survey

The specific objectives of the survey are --

- a) To estimate the person with disability (PwD) among the targeted area people.
- b) To determine the calcium deficiency rickets prevalence among children aged 6 months to 13 years
- c) To assess the intake of calcium rich food for children aged 6 months to 13 years
- d) To determine the access to safe water and sanitation facilities
- e) To propose recommendations in terms of program implementation and rickets surveillance according to the findings.

Requirements

Level of effort

The level of effort required for the completion of the tasks should not exceed a total of 30 (thirty) days and is expected to commence on or about April 1, 2021 and be completed by April 19, 2021.
