

Social Assistance and Rehabilitation for the Physically Vulnerable (SARPV)

Assistive Device Catalog

“Assistive devices are a tool to get back the confidence of persons with disability that they are equally dignified persons like others to participate in all the areas of the communities with dignity and hope. This is a key tool of the inclusion of people with disability in the mainstreaming process. These tools also prevent secondary health issues, boost confidence, and bridge gaps, promoting equality and access to opportunities for PwDs.”
